Summary of the Event	<p>Erragadda Substation (220/132kv) Visit</p> <p>On July 6, 2024, the IEEE GRIET PES Student Branch organized an enlightening industrial visit to the Erragadda Substation for third-year engineering students. This visit aimed to provide practical exposure to electrical infrastructure, allowing students to observe essential components like transformers, switchgear, and control rooms while learning about their roles in power distribution. Greeted by the facility's engineers, students engaged in discussions about the challenges in the power sector, including the integration of renewable energy and advancements in smart grid technologies. This experience not only enhanced their understanding of theoretical concepts but also fostered a greater appreciation for the field of electrical engineering, reinforcing the IEEE GRIET PES Student Branch's commitment to connecting academic knowledge with real-world applications. We extend our gratitude to the Erragadda Substation staff for their hospitality and insights during this valuable learning opportunity.</p>
