**Report of the Event**

**“C2000 Processors for the Real-Time Applications”**

**30<sup>th</sup> – 31<sup>st</sup> Jan 2018.**

A Two days' workshop on “C2000 Processors for the Real-Time Applications” was conducted by the Department of Electrical & Electronics Engineering with the support of **StarCom Information Technology Limited, Bangalore** from 30<sup>th</sup> January to 31<sup>st</sup> January 2018. The objective of the workshop was to give the knowledge of Code Composer Studio programming basics to the participants in the perspective to work with the DSP based C2000 processors like TMS320F28027, F2812 and F28335. Total 45 participants were registered for this training program including 8 faculty from the department of EEE, 36 students from IV B.Tech EEE and 1 student from M.Tech (PE) were got benefited by attending the workshop hands-on sessions during two days of the workshop.

During this workshop all the participants were regular to the sessions, were actively participated and interacted with the speaker Mr. T Balaji from StarCom Information Technology Limited, Bangalore. The content of the workshop was very good and effective in all the sessions.

I am very much thankful to Dr. J Praveen sir, HOD, EEE for giving me this opportunity to conduct such a good workshop and I look forward to conducting such kind of workshops and training programs in future as well.

Vinay Kumar. A  
Workshop Coordinator,  
Associate Professor,  
Department of EEE.
