Report of the Event

Title of the Event: Workshop on “Pedagogy for Online and Blended Teaching Learning Process”

Organized Date: 14th September 2017 to 12th October 2017

Summary Report:

Online educational methodology, and flipped classrooms with associated pedagogy of active learning, have quickly emerged as the mainstay of effective education in this century. However, most of our teachers lack skills and competencies for proper and effective use of ICT in education. It is thus an urgent national requirement that all our teachers, at least those teaching in our professional colleges, are empowered to use technology effectively, to enhance the quality of education.
