<b>Summary of the Event</b>	<p>IEEE GRIET SB Women In Engineering(WIE) AG, in collaboration with the Education Society of IEEE Hyderabad Section has organised a webinar on “Writing a winning Research Proposal” by Dr. M.G Sethuraman. The webinar was held using the online platform Cisco Webex Meetings.</p> <p>The goal of a research proposal is to present and justify a research idea that one has and to present the practical ways in which the research should be conducted. The webinar started off with Mr. M.G Sethuraman educating the attendees about the purpose of a research proposal and the value they hold in building innovation to bring modern solutions to present and future problems. He explained the significance of Research proposals and their effectiveness in transforming ideas into reality.</p> <p>Nextly, he introduced students to the statutory body: Science and Education Research Board (SERB). This Government of India establishment, aims to build up best management systems which would match the best global practices in the area of promotion and funding of basic research. He detailed to the students about the various schemes offered by SERB that support research funding and explained to students how to avail this opportunity. He also mentioned major fundamental thrust schemes that are majorly funded for research. These include, basic science, Applied and interdisciplinary sciences, humanities and social sciences,computational and mathematical sciences and Earth ,environmental sciences.</p> <p>Dr. M G Sethuraman, stressed on the fact that a research proposal needs to be original, valid and good for it to be persuasive for the granter to fund the project. He detailed the significant elements that a research proposal should consist of like title,Executive Summary,Budget,funder e.t.c . Apart from this he mentioned various funding agencies and numerous funding opportunities available for the interest of students.</p>
